

Final Project Report Document Template

Guidelines for the Report Preparation

1. The following are the guidelines the candidate should read before preparing and submitting his / her Project Report / Dissertation in partial fulfillment of the requirements of the Degree or Post graduate Degree that he / she has undertaken.
2. A candidate must prepare Project Report / Dissertation and submit the Report / Dissertation to the Director of respective School through his / her Project Guide before the last date fixed by the University.
3. All candidates shall pretest using anti plagiarism software before submission of the Project Report / Dissertation and follow the guidelines below while preparing their Project Report / Dissertation.
4. The University would cross-check the malpractice / plagiarism using anti plagiarism software and shall initiate necessary disciplinary action against the candidate and the Guide, in addition to rejecting Project Report / Dissertation.

- **Copies of Project Report / Dissertation:**

Three bound copies of the Project Report / Dissertation must be submitted to the University (the Director of respective School through the his / her Project Guide). The candidate is advised to keep a copy of the same for personal use. Along with three bound copies of the Project Report / Dissertation the electronic version of the same is to be submitted in CD in pdf format and a copy of the same is to be retained by the candidate.

- **Size & Quality of Paper:**

Good quality paper must be used for printing the report. The main copy of the Project Report / Dissertation should be original. Preferably the other two copies shall also be printed ones. In case of photocopy, such copies shall be such that they ensure consistent quality without gray or dark casts to the background. All copies shall be on white A4 paper and printed on one side of the paper.

- **Order of Content**

- ✓ Cover Page
- ✓ Title page
- ✓ Candidate's Declaration page - containing the signature of the candidate, guide, co-guide if any, and Director of the School.
- ✓ Certificate by the Guide and the Co-Guide if any, and the Director of the School concerned for having completed the project and prepared the report as per the requirements of the University. The certificate shall also be countersigned by the Principal Director.
- ✓ Certificate that the Project Report / Dissertation has been revised and resubmitted based on suggestions by examiners, if applicable, signed by the candidate, guide, co-guide, if any, and Director of the School. And countersigned by the Principal Director.
- ✓ Preface and/or Acknowledgement
- ✓ Table of contents with page references
- ✓ List of tables with titles and page references
- ✓ List of illustrations / Screen Shots if any, with titles and page references.
- ✓ List of Symbols, Abbreviation of Nomenclature

- ✓ Abstract
- ✓ Text
- ✓ References,
- ✓ Bibliography, if any
- ✓ Appendices, if any
- ✓ Copies of articles/ Conference papers published

- **Cover Page:**

The cover page of the under graduate degree project report / dissertation should be of **Orange** colour, whereas the cover page of the post graduate degree project report / dissertation should be of **Blue** colour. The details of typeface and font, the size of the letter, the spacing and the matter to be presented on the cover page are provided in the specimen.

- **Title Page:**

Title pages may contain similar information in the same format. However, if it is a Team Project and more than one student has participated in the project, the name of all the team members shall appear under “submitted by”.

- **Certificate Page**

- a) The certificate in the enclosed format shall be provided in the Project Report / Dissertation.
- b) Certificate that the Project Report / Dissertation has been revised and resubmitted based on suggestions by examiners, if applicable, signed by the candidate, guide, co-guide, if any, and Director of the School.

- **Preface and / or Acknowledgement**

If the candidate intent to give an introduction or prelude to the topic of the project / dissertation undertaken, he may present so briefly. He may also acknowledge the people who have guided / extended their support and cooperation in carrying out the project / dissertation work. Such acknowledgement should not be lengthy and personalized.

- **Table of contents**

This page is a contents page, wherein the candidate has to give chapter wise content and the page numbers. He / She may also give subtitles of the chapter with page if one wants to do so.

- **List of Tables**

If the project report contains the tables, such tables with the title of the table and the pagination should be listed here.

- **List of Illustrations**

If the candidate has used charts, diagrams such other pictures as illustrations such charts, diagrams etc., and the screen shots to support the explanation shall be listed under the list of Illustration with serial number and page number.

- **Abstract**

An Abstract shall be included in the preliminary section of the Project Report / Dissertation. The abstract in the body of the Project Report / Dissertation shall be in the same style as that used in the rest of the Project Report / Dissertation and shall be placed after the Certificate page. The Abstract shall reflect the contents of the Project Report / Dissertation & shall not exceed 500 words.

- **Text / Content of the Report**

Text is the body of the content arranged chapter wise, from 1st Chapter to the concluding Chapter. The typeface and font of the letters to be used, margins to be maintained, spacing between the lines etc. must be followed uniformly in the text as provided below. Normally the text of the report/dissertation shall contain the following:

Introduction

Literature Review

Methodology and Scope

Analysis of the data

Findings / Results of Analysis

Conclusion

Future scope

Please Note: Each chapter must start from new page

- **Typeface & Font**

The candidates must use the following **Size of Letter Fonts in Times New Roman**:

- a) **Main topics** – Bold letters, Font size – 14,
- b) **Subtopics** –Bold letters, Font size – 12,
- c) **Other topics and Explanation** –Normal letters, Font size – 12,

It should be noted that Script or ornamental fonts shall not be used. The print must be of letter quality. Accent marks and hand annotations must be done, neatly in black ink.

- **Margins**

Margins on the binding edge must be **1.5 inches**, and all other margins (Right / Top / Bottom) must be **one inch**. Pagination, headers, and/or footers may be placed within the margin, but margin from the edge of the page should be maintained as foresaid.

- **Spacing**

One and a half or double spacing is to be followed in the main body excepting in presenting foot notes, tables etc. which may be single space. Final copies of the Project Report / Dissertation must be clear and attractive. Each copy should be reviewed for evenness and clarity of type, missing pages and crooked text.

- **Pagination**

Each page of the manuscript, including all blank pages, and pages with photographs, tables, figures, maps, Computer printouts shall be assigned a number. Consistent pagination, at least one-half inch from the right-hand top corner of the page, shall be used throughout the Project Report / Dissertation. Further it may be noted that:

- a. For the preliminary pages, small Roman numbers (i, ii, iii, iv etc.) shall be used.
- b. For the remainder of the Thesis, the continuous pagination in Arabic numerals shall be followed.

- **Landscape**

For Text, Illustrations, Charts, Graphs, etc. printed in landscape form, the orientation shall be facing

away from the bound edge of the paper.

- **References**

References of all the documents such as articles in journals, conference papers, books, reports etc., used in carrying out the project works and in preparing the reports shall be listed under the references. The IEEE/ MLA standards may be used for listing the references. The reference list shall be either in order of reference number used in the body of the report or be in alphabetical order.

- **Bibliography**

The candidates may list the documents such as articles in journals, conference papers, books, and reports etc. that are related to the topic of the study/project/dissertation work. The IEEE / MLA standards may be followed for listing the bibliography.

- **Appendices**

The candidate may furnish the appendices such as specimen questionnaire / Schedule etc., under this section.

Important to Note

- a. Address of the candidate / Guide must be School / College address where research was carried out. The Address shall not contain personal affiliation or any other official information / details about the candidate / Guide such as qualification, designation, etc.**
- b. Official logo / symbol of the REVA University / Research Institute must not be used anywhere in the Project Report / Dissertation.**
- c. No dedication of any sort is permitted anywhere in the Project Report / Dissertation**

DECLARATION

We, Mr. / Ms. < Name of candidates > students of Bachelor of Technology, belong in to School of Computer Science and Engineering, REVA University, declare that this Project Report / Dissertation entitled "< title of the project >" is the result the of project / dissertation work done by us under the supervision of Dr. / Prof. <Name of Guide with affiliation > and < co-guide (s) if any, with affiliation, > at School of Computer Science and Engineering, REVA University.

We are submitting this Project Report / Dissertation in partial fulfillment of the requirements for the award of the degree of the Bachelor of Engineering in Computer Science and Engineering by the REVA University, Bangalore during the academic year 2025-26.

We declare that this project report has been tested for plagiarism and has passed the plagiarism test with the similarity score of less than 20% and it satisfies the academic requirements in respect of Project work prescribed for the said Degree.

We further declare that this project / dissertation report or any part of it has not been submitted for award of any other Degree / Diploma of this University or any other University/ Institution.

Signature of the candidates with dates

- 1.
- 2.
- 3.
- 4.

Certified that this project work submitted by < name of the candidates > has been carried out under my / our guidance and the declaration made by the candidates is true to the best of my knowledge.

ACKNOWLEDGEMENT

Any given task achieved is never the result of the efforts of a single individual. There are always a bunch of people who play an instrumental role leading a task to its completion. Our joy at having successfully finished our mini project work would be incomplete without thanking everyone who helped us out along the way. We would like to express our sense of gratitude to our REVA University for providing us the means of attaining our most cherished goal.

We would like to thank our Hon'ble Chancellor, Dr. P. Shyama Raju and Hon'ble Vice-Chancellor, Dr. Sanjay Chitnis for their immense support towards students to showcase innovative ideas.

We cannot express enough thanks to our respected Director, Dr. Ashwinkumar U Motagi for providing us with a highly conducive environment and encouraging the growth and creativity of each and every student. We would also like to offer our sincere gratitude to our Project Coordinators for the numerous learning opportunities that have been provided.

We would like to take this opportunity to express our gratitude to our Project Guide, <Guide Name>, for continuously supporting and guiding us in our every endeavor as well as for taking a keen and active interest in the progress of every phase of our Project. Thank you for providing us with the necessary inputs and suggestions for advancing with our Project work. We deeply appreciate the wise guidance that sir has provided.

Finally, we would like to extend our sincere thanks to all the faculty members and staff from the School of Computer Science and Engineering.

Abstract:

An abstract is an outline/summary of your paper and your whole project. It should have an intro, body and conclusion. It is a well-developed paragraph, should be exact in wording, and must be understandable to a wide audience. Abstracts highlight major points of your project and explain why your work is important; what your purpose was, how you went about your project, what you learned, and what you concluded

Keywords: -

(Font size: 12, Font name: Time new roman in Italic style, Line spacing: 1.15, Abstract should not exceed 500 words)

- **Introduction:**

Background, context, scenario or motivation for project work.

- **Literature Survey:**

A literature review discusses published information in a subject area, and sometimes information in a particular subject area within a certain time period. A literature review can be just a simple summary of the sources, but it usually has an organizational pattern and combines both summary and synthesis. A summary is a recap of the important information of the source, but a synthesis is a re-organization, or a reshuffling, of that information. It might give a new interpretation of old material or combine new with old interpretations. Or it might trace the intellectual progression of the field, including major debates. And depending on the situation, the literature review may evaluate the sources and advise the reader on the most pertinent or relevant.

- **Positioning**

1. **Problem statement:** A problem statement is usually one or two sentences to explain the problem your project will address. In general, a problem statement will outline the negative points of the current situation and explain why these matters. It also serves as a great communication tool, helping to get buy-in and support from others. One of the most important goals of any problem statement is to define the problem being addressed in a way that's clear and precise.
2. **Product position statement:** A product positioning statement is a short description of your target market and the product you provide to them. It's an internal tool that keeps all teams at your company in sync about how they should communicate your product's value to users. Your marketing department will reference your product positioning statement when creating campaigns, while sales representatives on your team will use the statement as a foundation for discussions with prospective customers.

- **Project overview:**

A project overview is a detailed description of a project's goals and objectives, the steps to achieve these goals, and the expected outcomes.

In addition, a project overview enables you to outline the project schedule, budget, necessary resources, and status.

1. **Objectives:** An objective describes the desired results of a project, which often includes a tangible item. An objective is specific and measurable, and must meet time, budget, and quality constraints. A project may have one objective, many parallel objectives, or

several objectives that must be achieved sequentially. To produce the most benefit, objectives must be defined early in the project life cycle, in phase one, the planning phase.

2. **Goals:** The goal of a project overview is to lay out the details of a project in a concise, easy-to-understand manner that can be presented to clients, team members, and key stakeholders.

- **Project Scope**

The project scope is a short document prepared primarily for the client. The scope statement clearly describes what the project will deliver and outlines generally at a high level all the work required for completing the project.

General Project Information

Problem/Opportunity Statement:

Business Benefits:

Project Deliverables:

Estimated Project Duration:

- **Methodology**

Methodology is a strictly defined combination of logically related practices, methods and processes that determine best to plan, develop, control and deliver a project throughout the continuous implementation process until successful completion and termination.

It can contain **block diagrams** and approaches to solve the problem / project

- **Modules identified:**

A "module" is a high-level description of a functional area, consisting of a group of processes describing the functionality of the module and a group of packages implementing the functionality.

- **Project Implementation**

Your project group is required to submit a document outlining the project's implementation details.

1. **Architectural Design:** Component diagrams, high-level descriptions of the components in your system, and their purpose in relation to the project's objectives.
2. **Class Diagram:** Outlines the attributes, methods and interactions of the major classes/modules in your system.
3. **Entity Relationship Model:** Specifies the entities, datatypes, and relationships that are important for the project domain.
4. **Sequence Diagram:** Illustrates object interactions for the major use case scenarios for the project.
5. **Description of Technology Used:** Hardware devices, software products, programming languages.

Ensure that your diagrams follow proper modelling conventions. Include appropriate write-up to connect the sections. Overall, your document should have a smooth flow, logical transitions, and should be easy to follow.

- **Findings / Results of Analysis**

The principal outcomes of a project; what the project suggested, revealed or indicated. This usually refers to the totality of outcomes, rather than the conclusions or recommendations drawn from them.

- **Cost of the Project**

The total expenditure was incurred while carrying out the project. A complete breakdown shall be furnished

- **Conclusions:**

A conclusion is the last part of something, it means "finally, to sum up," and is used to introduce some final comments at the end of writing.

- **Project Limitations and Future Enhancements**

There are a lot of features and functionalities that can be integrated in a project, but the project scope is limited to diligently resolve the problems as identified in the problem statement. The project objective has to be achieved pertaining to the Time Constraint and Monetary constraint applied in accordance with the defined functionality of the system. However, features that are not included in the system can be considered as future enhancements. Here the description of the limitations and features that could be used in the project has to be specified.

- **References:**

References must be quoted as per the following format:

Author(s) Initial(s). Surname(s), "Title of Report," Abbrev. Name of Co., City of Co., Abbrev. State, Country (abbrev. US State or Country if the city is not 'well known'), Report number/Type (if available), Abbrev. Month. (Day if available), Year of Publication.

Example for reference is given below. **Kindly follow the same format for writing reference**

G. Eason, B. Noble, and I. N. Sneddon, "On certain integrals of Lipschitz-Hankel type involving products of Bessel functions," Phil. Trans. Roy. Soc. London, vol. A247, pp. 529–551, April 1955.

J. Clerk Maxwell, A Treatise on Electricity and Magnetism, 3rd ed., vol. 2. Oxford: Clarendon, 1892, pp.68–73.

I. S. Jacobs and C. P. Bean, "Fine particles, thin films and exchange anisotropy," in Magnetism, vol. III, G. T. Rado and H. Suhl, Eds. New York: Academic, 1963, pp. 271–350.

K. Elissa, "Title of paper if known," unpublished.

R. Nicole, "Title of paper with only first word capitalized," J. Name Stand. Abbrev., in press.

M. Young, The Technical Writer's Handbook. Mill Valley, CA: University Science, 1989.

- **Appendices**

The candidate may furnish the appendices such as specimen questionnaire / Schedule etc., under this section.

- **Copies of Articles:**

1. **Conference papers published (Certificate with Published Paper):** Candidate shall furnish the certificate of the conference in which he/she has presented a paper regarding the project.
2. **Patent Forms:** It also mandates for the candidates to learn filing of patents, here candidates shall furnish the patent forms with acknowledgement of patent filing.
3. **Any Awards achieved (Certificates):** If the candidates have participated in any of the project expo or any competitions internal or external and has received recognition / award the certificates have to be furnished
